

## Novelties at a Glance

Since 2018 Götting is system integrator for LiDAR laser scanners in indoor and outdoor applications. Götting is also a reseller for Velodyne LiDAR® scanners in the region D-A-CH.

# Velodyne LiDAR®

Teleoperation for AGV for the transport of tank containers

Natural navigation for AGVs, localization by Rexroth ROKIT Locator

Powered by

2D positioning alternatively by transponders or magnets

HG G-98830: Transponder Antenna

HG G-98630: Magnet Localization Sensor

Automated electric tow tractors with automatic coupling and uncoupling of trailers

## Radio and Sensor Technology

Götting will provide the optimal solution for your particular vehicle automation

## Short and Precise

## Innovation in Guidance

## About Götting

Development Department, Kolshorner Straße

Götting KG, founded in 1965, is a globally operating and strongly innovative company, located in Lehrte close to Hannover. We are developers and manufacturers of wireless data communication systems and sensors for automatic track guidance of Automated Guided Vehicles (AGV). GÖTTING has the largest product range of different components for track guiding AGV worldwide.

Further main topics are automation and material handling, traffic technology, RF measuring, wireless data communication in general as well as customized solutions. Currently our company has approx. 80 employees of which 30 are experienced masters in engineering and are responsible for research and development.

With the foundation of our department FOX in 2000 our expanded product line now includes automation for serial vehicles, such as trucks, wheel loaders, tugs, and forklift trucks. Götting has been awarded several first prizes for these innovative achievements.

## Components for AGV

Laser Scanner Navigation

Transponder Positioning

Runtime Measurement, e.g. GPS

Optical Guidance Line

Guide Wire

Guidance along Energy Track

Magnet Sensor

Radio Data Communication

Gyro

Drive-Steering Module for AGV

## Partial or Full Automation of Vehicles

Mini AGV

Forklift Truck

Heavy Duty AGV

Electric Tow Tractor

Wheel Loader

Truck

Heavy Duty Truck

Terminal Tractor

Container Vehicle

Container Crane
